SUMMARY

A motivated and responsible fourth-year Bachelor of Science in Information Technology (BSIT) student at Bukidnon State University seeking an On-the-Job Training (OJT) opportunity to apply academic knowledge and develop practical skills in a professional work environment. Familiar with basic programming, database management, networking, web development, and system administration. A fast learner with good communication, teamwork, problem-solving, and organizational skills, eager to gain hands-on experience and contribute positively to the organization while continuing to grow professionally.

WORK EXPERIENCE

Data Entry 2016 - 2018

- Enter customer information, vehicle details, and insurance policy data into the system.
- Update existing customer records and policy information.
- Process insurance applications, renewals, cancellations, and policy changes.
- Encode information from forms, documents, emails, and insurance records.
- Review documents for missing or incorrect information.
- Meet required data-entry accuracy and productivity targets.

Data Entry - Supervisor 2018 - 2020

- Supervise and monitor the daily work of data entry employees.
- Assign tasks and manage workloads to meet daily targets.
- Train and assist employees with data-entry procedures and company systems.
- Monitor employee performance, productivity, and accuracy.
- Ensure the team follows company policies and insurance data-processing procedures.
